

FELICITATION EVENT OF ISB ATAL CATALYST PROGRAMME

On June 22nd, Team **EDBRAILLIAC** was honoured at the ISB Mohali during the felicitation event of the Atal Catalyst Programme. This prestigious event celebrated the top 21 innovative teams from over 10,000 entries nationwide.

The EDBRAILLIAC project integrates hardware and software to convert text from any e-book into Braille, allowing visually impaired individuals to read any book. Essentially, it functions like a Kindle for the blind, making reading more accessible.

The team members Soham Bilolikar, and Naman Pattanaik from DDMS P. Obul Reddy Public School, the innovators of EDBRAILLIAC, received a memento and a coffee table book commemorating the event. Notably, this book will be sent to the Prime Minister of India, highlighting the significance of their contributions towards the visually impaired people.

The event at ISB Mohali celebrated the innovation of other top 21 teams showcasing young talents across India. This reflects that the innovative solutions that address real-world challenges, pave the way for a more inclusive future.
