

DDMS P.OBUL REDDY PUBLIC SCHOOL

SEPTEMBER - (2016)

DEZINE CLUB

JUST DESIGN

CLASSES - IV & V

TERM - I

GOOD ART IS A TALENT. GOOD DEZINE IS A SKILL.

As an in charge teacher for Dezine Club I tried to bring out their talent and sharpen it through different activities.....

Ms Seema Sharma

On 21st June students were taught the basic shapes and lines. Students learnt that lines have direction and the objective behind drawing the lines. Horizontal line suggests tranquility and stability whereas vertical line gives a feeling of balance and alertness.

On 28th June students were taught how to draw basic shapes and use them to make pictures. They enjoyed doing the activity.

They were taught how to make a beautiful Birthday Card using different material on 5th and 13th of July. They learnt that it's a nice way to express their love to their dear ones through hand made cards.

On 19th and 26th of July students were taught how to make shapes and patterns through paper folding. They cut the designs and pasted them in their books. They immensely enjoyed seeing their creative work,

On the occasion of Friendship Day children were taught how to make Friendship Bands in club periods on 2nd August. They made beautiful Friendship Bands and tied them to their friends.

Followed Rakshabandhan, a festival that depicts brother and sister love. Students of Dezin Club made a variety of colourful Raakhis with teacher's guidance.

Tattoo Making for boys and Mehindi Design for girls were taught on the paper for students during club periods on 16th August. Students actively participated in the activity and thoroughly enjoyed it.

On 23rd August, on the occasion of Ganesh Chaturthi students drew colourful drawings, and made the idols of Ganesha.

All the above activities helped the students to enhance their creative skills and develop fine motor skills.

I look forward to teach them a few more interesting activities in the second term.....
