

CLASS- NURSERY

WEEKLY LEARNING PLAN

WEEK NO - 29

DATES: 13.12.16 to 16.12.16

BLOCK COMMENTRY

From the desk of Nursery teachers,

Dear Parent,

Here is the information about the early programme lesson on **AMAZING ANIMALS.**

In this lesson, students will learn about pet, farm and jungle animals.

Students will learn about pets through riddles and rhymes. They will learn about farm animals by observing a farm created in the classroom with puppets of animals. They will sing a song and walk through a make-believe jungle in the class. They will find similarities and differences among different animals.

During math time, students will learn to identify, show, trace rainbow write the number 5.

During language time, students will recognise the letter and familiar words that begin with letter 'P'. students will form back open curves. They will also look at the pictures of animals in a book and talk about them.

Rather than simply identifying and naming the animals, students will learn about animals by interpreting and inferring through rhymes and riddles.

At home, you can take your child to the zoo to see different animals.
