

The Student Counselor Ms. Sheela conducted an awareness workshop on how to help the students with Learning Disabilities and Circle Time activities on 10th June 2016. Teachers of Classes I to X along with language teachers participated in the workshop.

Ms. Sheela explained how Circle Time activities can help the teachers to bring out the talents and skills which are dormant in a child. The Quality Circle Time can help the students think, listen, speak and concentrate.

These activities impart positive behavior and boost their self esteem. It was an interactive session where in the teachers participated actively and exchanges ideas.

Further Ms. Sheela explained how to identify the students with Learning Disabilities in the classroom and reach out to them. She suggested alternative measures to teach such students. She

briefed the teachers about the causes for different disabilities, approaches to diagnose them and the need to attend them with empathy and patience. She emphasized on the importance of parent teacher involvement to bring out the best in these kids and help them to overcome their problems. It was a

thought provoking session.
