

Workshop on Critical thinking at ISB, Gachibowli

The students classes XI AND XII of our school have attended a workshop on **critical thinking** on August 21st 2016 at Indian School of Business, Gachibowli. They learnt that critical thinking is a quest not to find the answer but to keep up the quest to ponder. They were made to understand that thinking will keep the brain alive and rejuvenated. Students enjoyed listening and interacting with **Prof. Madhavi Menon** of Ashoka University. She provided us with insights into 9 different streams and their varying perspectives.

All in all, the workshop was enriching and very insightful.
