

IC3 Residency Cohorts - Training and Certification Programme

Our teachers Mrs. M. Phanimala and Mrs. K. Krishna Kumari have been a part of the IC3 Residency Cohorts, (Training and Certification Programme) spread across a year from October 2018 to June 2019 in various universities like Ashoka University, Sonipat, University of Ahmedabad, Ahmedabad and so on.

The Residency sessions which trained the Career Guidance Counsellors from several schools across the country and Nepal aimed at mentoring these counsellors with career guidance elements like designing a class based curriculum for career counselling, self-awareness, decision making skills, economic awareness and so on. The counsellors were also trained to enlighten students in areas like educational awareness, employability skills, career information and economics of higher education. The counsellors also had the golden opportunity of interacting and learning from the scholarly professors at Shiv Nadar University - Greater Noida, Jindal Global University- Sonipat and so on.

The certification programme ended with presentation of certificates to all the career counsellors. All in all, these sessions were very inspiring, motivating and helpful in honing the career guidance skills of our teachers.
