

CLASS: VI -TOUR REPORT
ACTIVE DISCOVERY CAMPUS
KOWKUTNLA, CHEVELLA, RANGAREDDY DISTRICT, TELANGANA

DATE: 2nd Oct To 3rd Oct 2024

Educational tours are a crucial component of the academic program because they give students the chance to learn outside of the classroom and get useful practical experience.

There is a proverb that goes “I hear and I forget, I see and I remember, I do and I comprehend”, and it refers to the idea that seeing something being done in a certain location help people remember better.

DDMS P. Obul Reddy Public School has taken the children of class VI on an educational tour to active discovery campus on 2nd Oct/ Wednesday to 3rd Oct / thursday. It was the first slot and the 2nd slot started on 4th Oct and returned back on 5th Oct. It was a two days and one night tour.

The students and the teachers boarded the bus from school early in the morning and reached the active farms.

A warm welcome was given to the teachers and the students by the tour in charge Mr. Vamsi Krishna and the team. The beautiful ambience was heart throbbing and the students learned to make a variety of things. It was a hands-on and an interactive way.

The discovery campus provided the students an opportunity to develop important skills such as independence, problem solving, and team work as they navigate unfamiliar environment and culture.

They learned to make different variety of soaps, preparation of herbal floor cleaner, glass cleaner, and making of pain reliever roll on. The program was scheduled in a very systematic way with small breaks and refreshments and lunch.

The children enjoyed the Binge Science activities: Glow powder, volcano, fire extinguisher. Then the children were made in two teams so that one team went out doors for 4: wall construction and another team stayed indoors and made 3D Key chains. In the evening they enjoyed the Dussehra celebration. Children dressed up in traditional attire and looked very pretty. The girls carried in their hand flower plates and went round and performed Bathukamma dance.

The next day morning the children enjoyed making chocolate spread nutella and chocolate making, wrapping and packing them in beautiful gift packets. Then students were taken for domestic animal feeding and had a lovely experience. Paddy transplantation, soil preparation and other activities were done. Then they had Jeevamrutham and natural pest preparation.

The hands on learning experience have deepened the understanding of subject or topic by actively participating in the learning process. Students also enjoyed the train ride around the farm and saw lovely fields and birds chirping around.

It was a wonderful experience for the students who enjoyed and learned different skills and took home all the items they prepared and returned back with sweet memories.

We thank the Principal Ma'am, Vice- Principal Ma'am and the management for giving us this lovely opportunity which has cherished the young minds with knowledge and beautiful memories.
