

LIBRARY WEEK CELEBRATIONS REPORT 2024 – PORPS

The Library Week Celebrations at DDMS (AMS) P. Obul Reddy Public School, held from 14th to 20th November 2024, were a vibrant showcase of activities designed to inspire a love for reading, creativity, and critical thinking among students. The events emphasized the library's role as a dynamic learning hub while addressing contemporary issues such as misinformation. The celebrations began with a digital session on fake news. This session, titled *"How to Identify and Avoid Fake News,"* educated students on evaluating the credibility of online information and provided practical tools to navigate the digital landscape responsibly. Students participated actively in discussions, enhancing their understanding of misinformation.

A three-day book fair was another highlight of the week, offering students, teachers and parents access to a wide range of books across genres. The enthusiastic response led to a significant number of purchases, underscoring the community's shared love for books. The celebrations also featured an inspiring author talk by Ms. Aditi Krishnakumar, the recipient of the Scholastic Asian Book Award (2016). She shared her journey as a writer, emphasized the importance of reading, and engaged with students through a lively Q&A session. The event was praised for its motivational and engaging nature.

Students also demonstrated their creativity through a chart-making activity, where they illustrated and celebrated the works of various authors. The visually striking charts were displayed throughout the school, fostering a vibrant and inspiring atmosphere. Additionally, students presented talks on notable authors during the school assembly, sharing insights about their writings and literary contributions. This activity not only enhanced their public speaking skills but also deepened their appreciation for literature and libraries.

The Library Week Celebrations were a resounding success, providing students with unique opportunities to engage with books and ideas. The initiative fostered a culture of reading and intellectual curiosity, reaffirming the library's role as a cornerstone of learning. The collaborative efforts of the school administration, teachers, parents, and the Library Department ensured the week's success, leaving a lasting impact on the school community.
