

PRE PRIMARY DENTAL CHECK UP IN SCHOOL

A dental check-up was conducted for Pre Primary students on 27th November'24 in our school. Dr. Naveen, Dr. Vinuthna and Dr. Omar from Naveen's Kalyan Dental Hospital were the team of dentists who examined the students.

The dentists checked for cavities, plaque, and gum health and provided tips on proper brushing and good oral hygiene habits. Parents of students who had cavities and other oral health problems were informed and advised to visit the dentist for further treatment.

The check-up was an informative and fun experience for students. We would like to thank the dentists for taking their time to educate students about oral health. Thanks to school Management for organising this useful event.
