

NATIONAL MATHEMATICS DAY----SPECIAL ASSEMBLY (2024-25)
BY CLASS- 9 & 10 MATHS COORDINATOR MALLESHWARI RAI

Maths day which is celebrated to honour the birth anniversary of Srinivasa Ramanujan was held in our school on Monday, 23 December, 2024 as an initiative carried out by the teachers to instil a love for mathematics in all the students. The math assembly was not only fun and interactive but also educational as it began with a speech on mathematics day to make us understand the importance of mathematics in our daily lives. After which, we were enlightened by a speech on Srinivasa Ramanujan to honour him towards his contribution to Indian Mathematics.

To keep the beats going a grooving dance performance was presented by students of class 10 and 8. For the students to find reliability with maths in their everyday lives, the students of class 9 and 10 brought along a humorous skit. A rhythmic remix of the song shape of you with a mathematical twist was sung by the students of class 8.

Throughout the week multiple CCA's like square root spiral art, relay race with maths etc. were organised to make students understand maths better. The awards for these competitions were given during the assembly. An informative speech was delivered by Principal, K. Vinitha ma'am and Math HOD, I. Srinivas sir. The students then took an oath in guidance of R. Malleshwari ma'am to respect and appreciate maths every day.

The Assembly concluded by the understanding that the book of nature is written in the language of mathematics.
